governance principles, institutional capacity and quality

Strategy (from Greek *στρατηγία*, *stratēgia*, "art of troop leader; office of general, command, generalship") is a high level plan to achieve one or more goals under conditions of uncertainty. In the sense of the "art of the general", which included several subsets of skills including "tactics", siegecraft, logistics etc., the term came into use in the 6th century C.E. in East Roman ...

How Cloud Computing Enables Modern Manufacturing

Overview. System dynamics is a methodology and mathematical modeling technique to frame, understand,

and discuss complex issues and problems. Originally developed in the 1950s to help corporate managers improve their understanding of industrial processes, SD is currently being used throughout the public and private sector for policy analysis and design.

OECD Perspectives: Spain Policies for a sustainable recovery

Capability Maturity Model is a bench-mark for measuring the maturity of an organization's software process. It is a methodology used to develop and refine an organization's software development process. CMM can be used to assess an organization against a scale of five process maturity levels based on certain Key Process Areas (KPA).

What is Capability Maturity Model (CMM)? What are CMM Levels?

Executive Summary. Within a decade, the Gulf of Guinea has become one of the most dangerous maritime areas in the world. Maritime insecurity is a major regional problem that is compromising the development of this strategic economic area and threatening maritime trade in the short term and the stability of coastal states in the long term.
