Design is change. Parametric modeling represents change. It is an old idea, indeed one of the very first ideas in computer-aided design. In his 1963 PhD thesis, Ivan Sutherland was right in putting parametric change at the centre of the Sketchpad system, the first computer aided design (CAD) system.

Parametric design is a paradigm in design where the relationship between elements is used to manipulate and inform the design of complex geometries and structures. The term parametric originates from mathematics ( parametric equation ) and refers to the use of certain parameters or variables that can be edited to manipulate or alter the end result of an equation or system.
