A Reconsideration of Environmental Federalism Wallace E. Oates Abstract This paper provides a review and assessment of the debate over environmental federalism—the issue of the roles of different levels of government in environmental management. The paper begins with the presentation of three benchmark cases that provide a

A Reconsideration of Environmental Federalism

Environmental federalism relates to the “proper assignment of various roles” to the different tiers of government. (Oates, 1997) However, such a proposition is not free from challenges and criticism. The “race to the bottom” thesis is an oft cited criticism of environmental decentralisation or principle of subsidiarity.
