## **facts values ethics a pdf**

In ethics, value denotes the degree of importance of some thing or action, with the aim of determining what actions are best to do or what way is best to live (normative ethics), or to describe the significance of different actions. Value systems are proscriptive and prescriptive beliefs, they affect ethical behavior of a person or are the basis of their intentional activities.

Meta-ethics is the branch of ethics that seeks to understand the nature of ethical properties, statements, attitudes, and judgments. Meta-ethics is one of the three branches of ethics generally studied by philosophers, the others being normative ethics and applied ethics.. While normative ethics addresses such questions as "What should I do?", thus endorsing some ethical evaluations and ...
