supplement their own artillery as needed, and to affect the outcome of many battles. By mid-war, the Confederate army realized the usefulness of organizing its artillery into battalions consisting of three to six batteries, allocating them to its infantry divisions, and also establishing an artillery reserve.

### **Civil War Artillery**

combat-ready field artillery battalions had shrunk radically in both number and even tubes per unit. After the war, a variety of reorganizational schemes had been proposed for the field artillery, but they all agreed on certain basics: the need to improve mobility, fire direction, command and control,
