A respirator is a device designed to protect the wearer from inhaling particulate matter, including airborne microorganisms, fumes, vapours and gases. There are two main categories: the air-purifying respirator which forces contaminated air through a filtering element, and the air-supplied respirator in which an alternate supply of fresh air is delivered.

Over the past two years, state legislators across the country have launched an unprecedented series of initiatives aimed at lowering labor standards, weakening unions, and eroding workplace protections for both union and non-union workers. This policy agenda undercuts the ability of low- and middle-wage workers, both union and non-union, to earn a decent wage.
