Rethinking education – Evidence-informed school improvement

Rethinking Learning in the Digital Age 33 Digital Fluency Unfortunately, most people don't use computers that way today. When people are introduced to computers today, they are typically taught how to look up information on the Web, how to use a word processor, how to send e-mail. But they don't become fluent with the technology.

CHAPTER 3 Rethinking Learning in the Digital Age

education, guided my steps. Thus, I drew from theories on student engagement and oral storytelling as a way of learning to those within the realm of seating arrangement. I also draw from theories on the use of familiar languages in instruction, critical literacy, and sociocultural theories of learning.

Rethinking Learning and Teaching in Africa

apart from schooling. Education is a lifelong enterprise, while schooling for most encompasses only ages five to 18 or 21. Even when students are in school, much of their education happens 1 This article summarizes arguments in the forthcoming publication: Collins, A. & Halverson, R. (2009). Rethinking Education in the Age of Technology: The ...
