Science Fair Project Ideas, Answers, & Tools

Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...

Computer science is the theory, experimentation, and engineering that form the basis for the design and use of computers. It involves the study of algorithms that process, store, and communicate digital information. A computer scientist specializes in the theory of computation and the design of computational systems.. Its fields can be divided into a variety of theoretical and practical disciplines.

The presence of liquid water at the base of the martian polar caps was first hypothesized more than 30 years ago and has been inconclusively debated ever since. Radio echo sounding (RES) is a suitable technique to resolve this dispute, because low-frequency radars have been used extensively and successfully to detect liquid water at the bottom of terrestrial polar ice sheets.

Radar evidence of subglacial liquid water on Mars | Science

This is the first of two posts which began life as a single piece with the title "The Physics of Economics (and the Economics of Physics)". In the first section, here, I discuss some ways physicists have attempted

to contribute to economics.

What is the AAAS? The American Association for the Advancement of Science (AAAS) is the worldâ€™s largest general scientific society, and as such, encompasses all disciplines in the scientific community. Founded in 1848, AAAS publishes Science, one of the most widely-circulated peer-reviewed scientific journals in the world.

Public and Scientistsâ€™ Views on Science and Society | Pew

Examines the science and arguments of global warming skepticism. Common objections like 'global warming is caused by the sun', 'temperature has changed naturally in the past' or 'other planets are warming too' are examined to see what the science really says.
