"God of the gaps" is a theological perspective in which gaps in scientific knowledge are taken to be evidence or proof of God's existence. The "gaps" usage was made by Christian theologians not to discredit theism but rather to point out the fallacy of relying on teleological arguments for God's existence. Some use the phrase as a criticism of theological positions, to mean that God is used as ...

The prominence of circles and circular motion has been one present in scientific discussion of the structure of the universe from Aristotle to Einstein. Development through Ptolemy, Copernicus and Kepler created elliptical variations, but in essence, the scientific community has been unable to break free of a certain degree of circular motion that ultimately seems fundamental to the very ...

Mormonism and the Scientific Persistence of Circles

The Scientific Revolution was a series of events that marked the emergence of modern science during the early modern period, when developments in mathematics, physics, astronomy, biology (including human anatomy) and chemistry transformed the views of society about nature. The Scientific Revolution took place in Europe towards the end of the Renaissance period and continued through the late ...
