segmentation revenue management and pdf

Revenue management is the application of disciplined analytics that predict consumer behaviour at the micro-market levels and optimize product availability and price to maximize revenue growth. The primary aim of revenue management is selling the right product to the right customer at the right time for the right price and with the right pack.

Revenue management - Wikipedia

Market segmentation is the activity of dividing a broad consumer or business market, normally consisting of existing and potential customers, into sub-groups of consumers (known as segments) based on some type of shared characteristics. In dividing or segmenting markets, researchers typically look for common characteristics such as shared needs, common interests, similar lifestyles or even ...

Market segmentation - Wikipedia

What Is Workforce Segmentation? Human Resource professionals separate the various components of their organization's workforce in order to tailor their human resource policies and practices to each segment.
